O DO TO SERVE DE LO DE L

SHIPPING ORE WORTH \$60,000

Mayne's Sandstorm Lease Markets 20 Tons of \$3,000 Rock.

BLACK DIAMOND'S STRIKE

DRIFT RUN SIXTY FEET INTO SOLID ORE BODY.

With twenty tons of ore delivered to the sampling works at Reno that Mammoth. will bring approximately \$60,000, or \$3,-000 a ton, A. H. Mayne came in from Goldfield yesterday to spend the holi-Roc.-Home. Goldfield yesterday to spend the holi-days at home. The ore just shipped was the initial consignment from the days at home. The ore just shipped was the initial consignment from the lase held by Messrs. Mayne, Davis and Loftus on the Sandstorm, and it will be followed at regular intervals, Mr. Mayne says, with shipments equally as good. In looking after the sacking of the rock, Mr. Davis set aside what he called the first class ore and in another pile accumulated what was termed the second class ore. The first class, Mr. Mayne says, runs about \$5,000 per ton, while the second class, which constitutes a portion of the twenty-ton shipment, went \$1,000 to the twenty-ton shipment, went \$1,000 to the ton, the average of the lot being, as stated, about \$3,000 per ton.

"I am glad to say," said Mr. Mayne during the afternoon while conversing with a party of friends, "that the lease which we obtained is proving up even hetter than the powersers. R. & A.

with a party of friends, "that the lease which we obtained is proving up even better than the newspapers have pictured it. We have secured the ground for the year and I have no doubt we shall make good money out of it. Of course I consider it was a lucky stroke to get hold of the property. I had been working some copper properties I have over in Nevada, and when I Tono-Bel. ... Tono-Ex. ... been working some copper properties

I have over in Nevada, and when I Twent into Goldfield it was because I meeded money. In addition to the interest which I own in the Sandstorm lease, I have some ground near which is good also."

Mr. Mayne says that all the operators of the Goldfield district appreciate the attention which that region is being given by the Salt Lake press, more especially The Herald. They fully realize that the news which has been handled here has helped materially to draw attention to the ally to draw attention to that country, and here, he says, is where they prefer to do business, rather than in San Francisco, which has never had more to say for the merits of the eamps of Nevada than necessity com-He will return to camp immediately after the holidays.

BLACK DIAMOND'S STRIKE. Drift Has Been Sent Sixty Feet Into Solid Ore on 400 Level.

Joseph Dederich, who returned from a trip to the Black Diamond company's property at Stockton Thursday evening, confirms the report of a big strike in that embryonic bonanza. Mr. Dederich was the founder of the Black Diamond company and is pardonably proud of the manner in which it is

responding to development.

The strike, he says, was made on the 400-foot level, and since the ore-bearing channel was tapped at that depth ing channel was tapped at that depth a drift has been run for sixty feet through a solid body of sulphide ore, and there is nothing yet to indicate when the limits of the shoot will be the ore runs very high and carries fine values in silver, as well, while every pound of it will pay handsomely to mill.

There is about 200 feet of work yet to do before connections are made with the Honerine drain tunnel at a depth of 700 feet in the Black Diamond. Under the management of W. C. Alexander the property is being rapidly brought to the front, and there is every reason to expect that it will be rolling out the money by early spring.

WEEK'S TINTIC SHIPMENTS. Fourteen Mines Sent Out 111 Cars of Ore and Concentrates.

(Special to The Herald.) Eureka, Dec. 23.—During the past week fourteen shippers from this district forwarded to the valley smelters 10s carloads of crude fore and three cars of concentrates, as follows:

Bullion-Beck entennial-Eureka Incle Sam (crude ore)
Incle Sam (concentrates)
Yankee Consolidated

Uncie Sem (concentrates)

Vankee Consolidated

CONDITIONS AT FAY.

Status of Pending Litigation Is Humorously Described.

Modena, Dec. 22—It has been decided not to convene the district court at Ploche until the fourth week in January. This prolongs the agony of the conditions at Fay, as the loyal mining men of that camp have struck a hard formation and one the district court has been asked to drill in. The geology of the case, devoid of technical pittails, is something like this: If Jones holds an option that Smith never paid for, and Brown has been get the out the one, while Black attached the out when the dump, while White gold the one while Black attached the one while Black attached the out th

MINING STOCK EXCHANGE. Hustling for Holiday Coin Weakens

Hustling for Holiday Coin Weakens
the Market Somewhat.

The week's trading on 'change was brought to a close yesterday on sales aggregating 177,234 shares of stock, the recorded value of which was \$56,593.08, At the sessions held yesterday 31,350 shares, worth \$11,225,50, changed hands.

The trading yesterday gave unmistakable signs of hustling for Christmas "simoleons." and prices suffered some as a result. There were also some sacrifices made in order to get money to put into Wabash, which moved up from \$2.10 to \$2.35.

Daly was sold down from \$2.45 to \$2.35.

Daly was sold down from \$2.45 to \$2.35.

The 200 shares going having evidently been ordered sold without regard to the market condition of the stock. Mammoth was handled the same way, selling at \$1.30 to \$1.20, when the market on it has not been under \$1.55 for a long time. The

trotting out of over 17,990 shares of May Day reduced the price from 194c to 174c, while New York sold as low as 30%c, closing stronger at 32c, or ½c higner than the opening.

Daly-Judge held at \$5, Grand Central dropped to \$3.22%. Victoria to \$2, Carisa to 12c, and the other participants had to be content with bidders' prices.

Utah Stocks in Boston.

James A. Pollock & Co., bankers and brokers, yesterday received over their private wire from Paine, Webber & Co., one of their Boston correspondents, the following copper market comment and record of sales of Utah stocks on the Boston market, with range and closing quotations:

Boston market, with range and closing quotations:

Boston, Dec. 23.—Owing to the holiday tomorrow and Monday, the market was very dull today, with small fluctuations. Green Consolidated was again the most active stock, advancing about a point, closing at the top. It seems to be the opinion of the most conservative traders that the market is in a very strong position. Quotations:

A. E. Hyde, who has been supported by the control of the Montana-Tonopah company is pending and that certain big Pittsburg operators are trying to land it. A. E. Hyde, who has been making a trip through the Nevada gold regions from Caliente to Tonopah, reached home again yesterday. As was stated by The Herald some few weeks since, he made a good turn in the Bullfrog region and has, it is understood, secured property that he expects to turn out well. Mr. Hyde has been gone for more than two months.

How the Evil Que Came to be Popularly Known as "The Old Scratch."

One of the many familiar names of his satanic majesty is "The Old Scratch." It is undoubtedly due to the fact that scratching is so disagreeable that people thought it no worse than the evil one. A scalp fuil of dandruff keeps one scratching all the time; not only disagreeable, but considered very inelegant in polite society—as it should be—because one ought to keep the scalp so clean that it would not itch. To cure the scalp of dandruff, which is preliminary to falling hair, and, finally, baldness. No other hair preparation kills the dandruff germ. Herpicide also is a very delightful and effective hair dressing. Sold by leading druggists. Send ide in stamps for sample to the Herpicide Co., Detroit, Mich.
